PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience architecting and delivering scalable, high-performance web applications using React.js, Angular, Node.js, NestJS, Express.js, and MongoDB. Expertise in microservices architecture, distributed systems, RESTful API design, GraphQL (Apollo Federation), and event-driven systems using Apache Kafka. Demonstrated ability to deliver production-ready code with 95%+ unit test coverage, reduce QA effort by 50%, and improve system reliability through robust CI/CD pipelines. Adept at Agile methodologies, cross-functional collaboration, and mentoring junior developers.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass

Frontend: React.js, Angular, Redux, Redux Toolkit, React Hooks, RxJS

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL, Apollo Federation, Microservices

Databases: MongoDB, Mongoose

Message Brokers: Apache Kafka

Testing: Jest, Unit Testing, Integration Testing, E2E Testing

DevOps & Tools: Git, GitHub, GitLab, Docker

Methodologies: Agile (Scrum), Test-Driven Development (TDD), Code Review, Pair Programming

WORK EXPERIENCE

NTT DATA, INC

March 2025 - Present

Senior Associate Software Development Engineer

- Architected and scaled NestJS-based microservices with comprehensive unit and integration testing using Jest, achieving 95%+ code coverage and reducing production defects by 35%.
- Designed and deployed an Apache Kafka-based asynchronous consumer pipeline for large-scale data ingestion, automating ETL workflows and saving 10+ engineering hours per week.
- Led migration of legacy MongoDB Realm Function GraphQL services to Apollo Federation architecture, improving schema governance, enabling independent service deployment, and reducing post-release incidents by 25%.
- Collaborated with DevOps teams to strengthen CI/CD pipelines using Docker and GitLab CI, enabling zero-downtime deployments and improving release reliability by 40%.

SURYA DIGITECH PRIVATE LIMITED

July 2022 - April 2024

Software Development Engineer I

- Designed, developed, and maintained 5+ full-stack web applications using MERN (MongoDB, Express.js, React.js, Node.js) and MEAN (MongoDB, Express.js, Angular, Node.js) stacks, supporting 1,000+ daily active users.
- Optimized RESTful API performance through query optimization, caching strategies, and pagination, reducing average response times by 30% (from 3s to 2.1s).
- Translated Figma design mockups into pixel-perfect, responsive, and accessible UIs using React.js, Angular, HTML5, CSS3, and Sass, ensuring cross-browser and cross-device compatibility.
- Implemented Redux and RxJS-based state management architectures, reducing UI interaction latency by 25% and improving real-time data flow reliability.
- Wrote comprehensive unit and integration tests achieving 90%+ code coverage, reducing QA cycle time by 50%.

SURYA SOFTWARE SYSTEMS PRIVATE LIMITED

February 2022 - June 2022

Software Development Engineer Internship

- Developed cross-platform mobile applications using Ionic and Capacitor, accelerating feature delivery by 30% compared to native development.
- Built and validated RESTful APIs using Node.js and Express.js supporting real-time workflows, reducing API response latency by 40%.
- Collaborated with senior engineers to refine UI/UX interactions based on user feedback, improving usability metrics by 15% and reducing reported issues by 25%.

EDUCATION

New Horizon College of Engineering, Bangalore

2018 - 2022

B.Tech - Electronics and Communication Engineering
